LANGUAGE

- Tamil
- English

TOOLS

- Canva
- Google Sheets
- MS Word

SKILLS

- Python (Basics)
- HTML / CSS
- JavaScript

PROJECTS

• 3D Snake Gaming Using Python (Mini Project)

Developed a dynamic 3D Snake Game using Python and its libraries such as pygame and pyOpenGL. The Project involved implementing game mechanics, including snake movement, collision detection, and score tracking, in a three-dimensional environment.

• Air Quality Prediction Using Deep Learning Techniques

It provided a detailed code snippet for building a hybrid forecasting model for air quality prediction, combining N-BEATS with Random Forest. It's also included functions for data preprocessing, Variational Mode Decomposition, and plotting evaluation metrics.

• Basic Calculator Using HTML, CSS and JavaScript

It Provides the structure and basic elements for the calculator. Adds styles to make the calculator visually appealing and user-friendly. Implements the functionality to handle user input, perform calculations, and update the display. Such as decimal support, keyboard input handling, and error checking for safer operations.

EDUCATION

• Einstein College of Engineering, Tirunelveli

B.E.Computer Science - 7.45 CGPA
2020 - 2024

• Government School, Samabavar Vadakarai, Tenkasi

HSC - 53.5%
2017 - 2018

• Government School, Samabavar Vadakarai, Tenkasi

SSLC - 83.6%
2017 - 2018

INDUSTRIAL TRAINING

- Internship Completed on Web Development at Brassy Academy

CERTIFICATIONS

- Python and A.I for India 2.0 in Guvi with Certifications.
- HTML and CSS in Great Learning with Certifications.

EXTRA CURRICULAR ACTIVITIES

- Participation Certificate for Technical Quiz and Technical Connection in Symposium at JP College.
